ADVANTAGE CONTINUOUS LINEAR (ACL3)

Architectural Indoor Illumination

Create Custom Lighting Designs with Ease

The Advantage Continuous Linear gives you the tools needed to bring geometric lighting layouts to life in a range of applications.

Effortless Continuous Runs

Roll form lens eliminates seams between adjacent sections, ensuring a uniform look. Wide range of fully illuminated corners create seamless linear designs.

High-Performance Illumination

Outputs up to 1,600lm/ft that suits open or closed ceiling applications. Direct and indirect illumination provides a clean and comfortable aesthetic.

Precise Light Placement

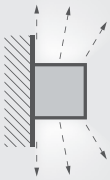
Batwing and Wallwash distributions available in addition to standard Lambertian distribution, allowing for optimal fixture spacing and directing light where most needed.

Vibrant Color Rendering

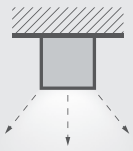
Renders colors accurately with a minimum Color Rendering Index (CRI) of 90 in a broad range of Color Temperatures (CCT) from 3000K to 5000K.

Mounting Configurations

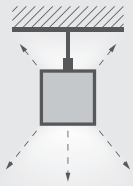
Recessed (R)



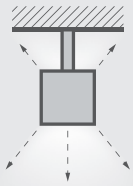
Wall (WM)



Surface (SM)



Aircraft Cable (SCH)

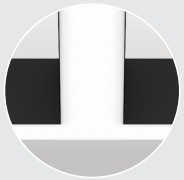


Stem (ST)

Fully Illuminated Corners & Connectors

90° Corner

120° Corner



T Connector

X Connector

Y Connector

90° Vertical Corner

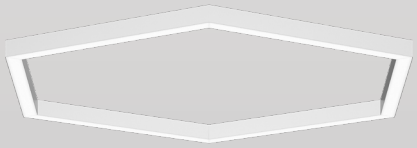
ADVANTAGE CONTINUOUS LINEAR (ACL3)

Square Sizes:
2x2ft / 3x3ft / 4x4ft / 5x5ft

Hexagon Size: 2ft sides



X Size: 4ftx4ft

Y Size: 2x2x2ft

T Size: 4x2ft

Continuous Shape Collection

LSI's Advantage Continuous Shape Collection provides a toolbox of seamlessly illuminated shapes. Create layered patterns, support custom linear designs, and design spaces with cohesive geometric identities.

Your Design Building Blocks

Explore the collection of available shapes and sizes.

Simple Ordering & Install
Single-piece housings simplify ordering and installation.

Mix & Match
Combine shapes to create layered patterns or standout light sculptures.

Same Great Illumination
All the same features and options of the ACL3, including lumens, CCTs, and distributions.

Vibrant Color Rendering
Renders colors accurately with a minimum Color Rendering Index (CRI) of 90.
