

Linear LED Strip (LCL) with Semi-Diffused Lens

The linear clear lens, high-performance LED strip light is a direct replacement for fluorescent strips. The LCL is designed to deliver general, ambient lighting in a variety of indoor settings, including schools, offices, hospitals and retail environments, and is the perfect choice for both new construction and retrofits. This high efficacy luminaire provides long life and uniform illumination, as well as standard 0-10V dimming capability.
