SHOWSTOPPING SPORTS LIGHTING

LSI Sports Lighting has been illuminating athletic complexes all over North America for nearly 50 years. Our expertly engineered LED fixtures and sports optics are designed for players and fans alike. With contemporary design aesthetics, our fixtures complement a variety of venues, but they should be the least noticeable thing on gameday, allowing players to focus on the game and fans to focus on the experience.

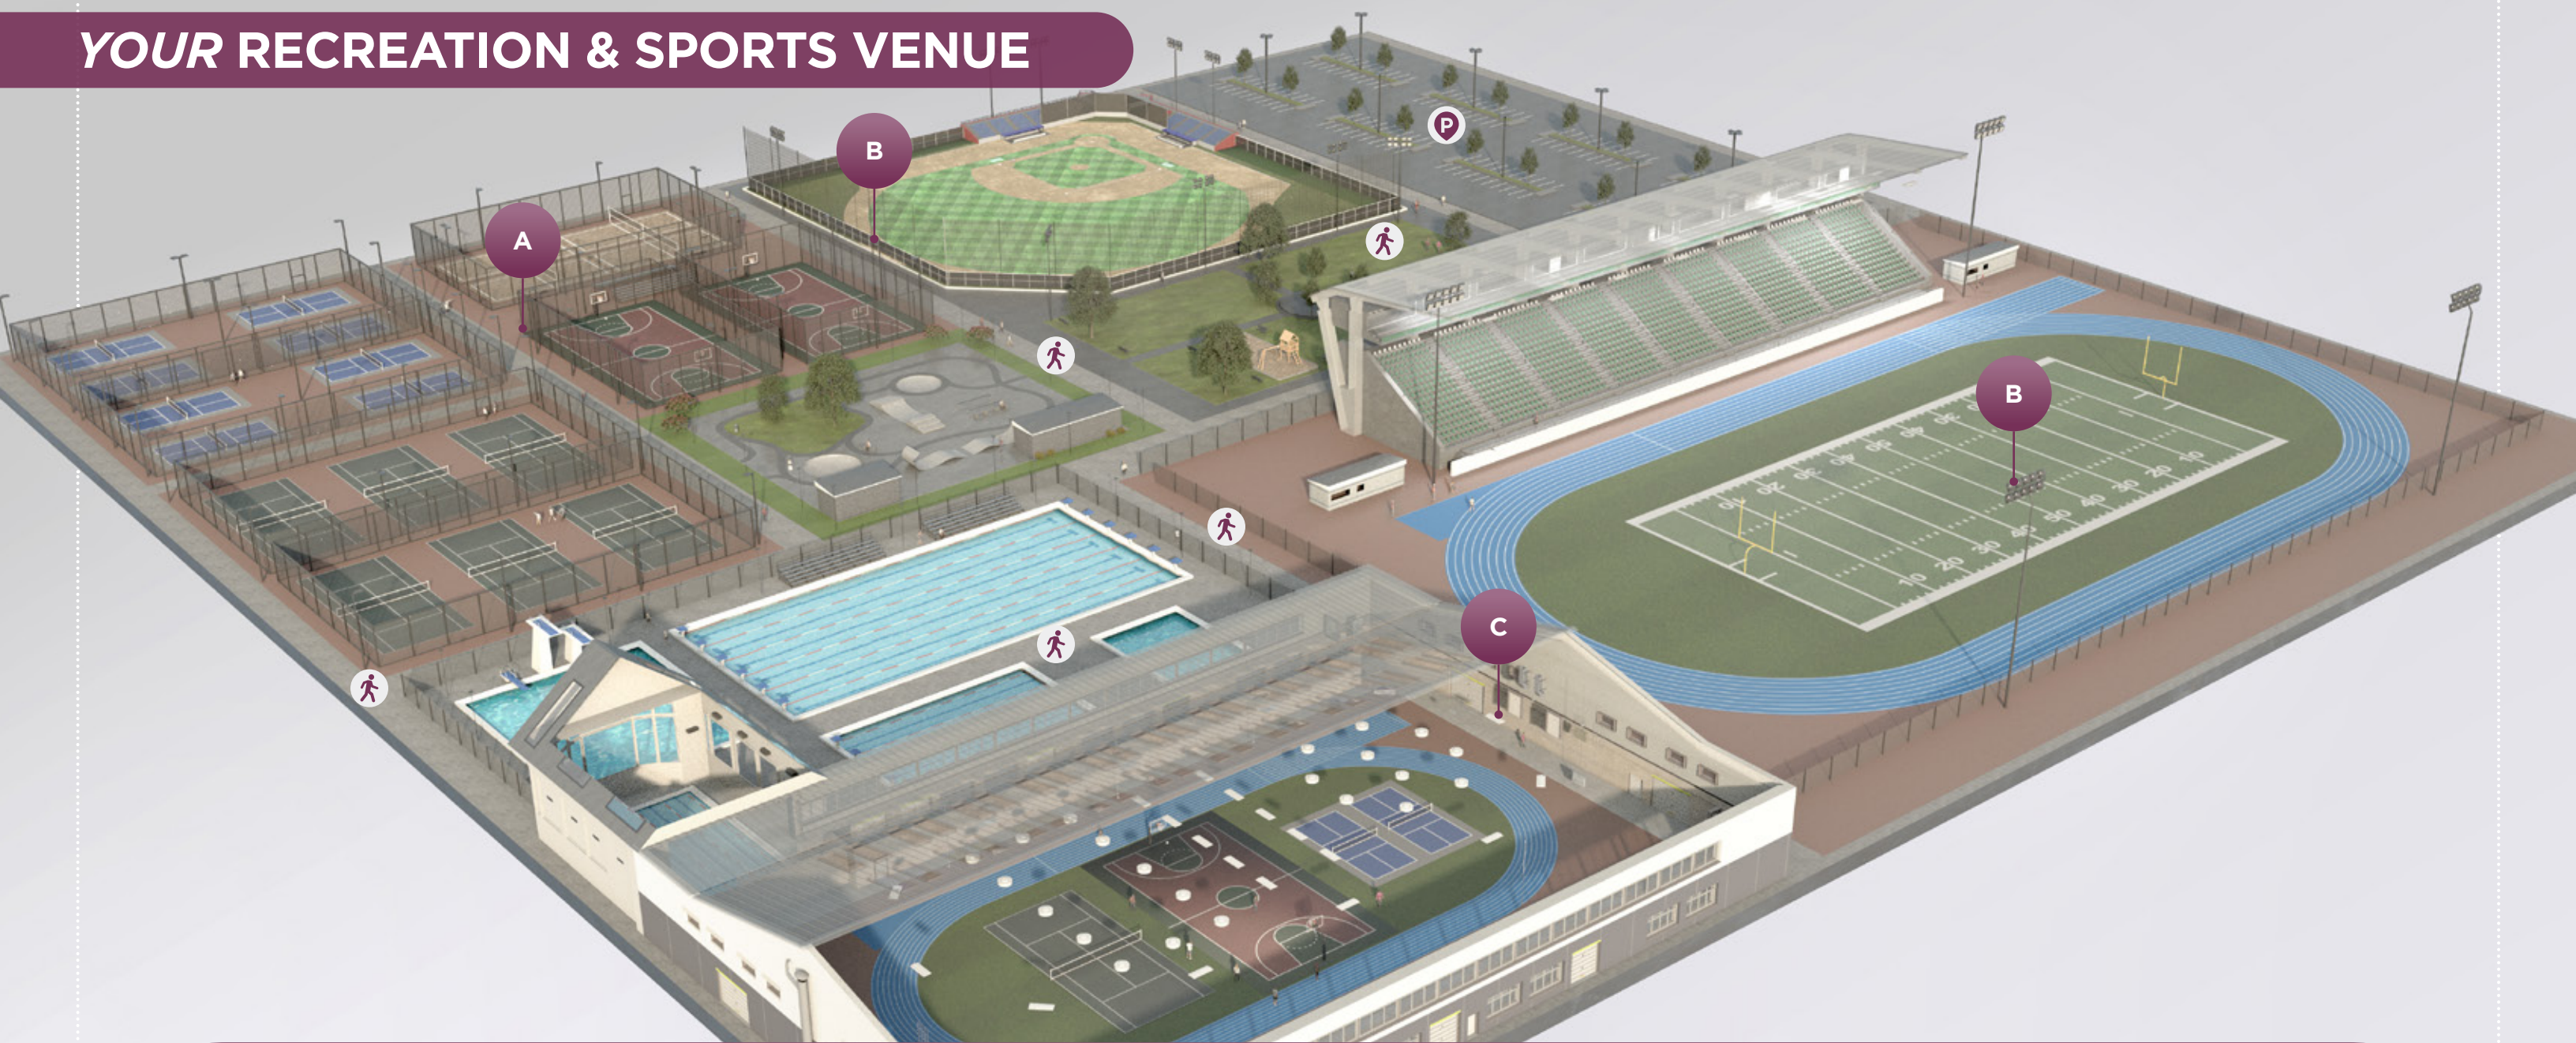

Headquartered in Cincinnati, our sports fixtures are manufactured in the U.S. to meet Buy American Act requirements, an especially important consideration for public facilities.

That means advanced glare and spill control, uniform light distribution, low-maintenance design, greater energy efficiency, and the ability to seamlessly manage every fixture from anywhere, maximizing energy efficiency and fixture life.

Headquartered in Cincinnati, our sports fixtures are manufactured in the U.S. to meet Buy American Act requirements, an especially important consideration for public facilities.

YOUR RECREATION & SPORTS VENUE

WHAT IS A SPORTS COMPLEX?

It could simply be a neighborhood youth sports field. Maybe it's a community recreation center, or a high school with football and soccer fields. A community park with pickleball and basketball courts, and an ice rink. Maybe its a private club with tennis and an indoor practice building. LSI Sports Lighting has solutions for nearly any sports application. This includes parking lot and pedestrian areas shown above.

A OUTDOOR COURT

Our ZONE™ court lights feature energy efficient LEDs paired with specialized optics to provide superior levels of illumination only where the light is needed. Packaged in a sleek, low profile housing, the ZONE court lineup features a variety of fixture sizes, lumen options, and more to suit every court application.

B OUTDOOR FIELD

Ideal for a variety of field and stadium applications, our ZONE Sports Flood brings powerful illumination with state-of-the-art sports optics. With four distribution options, aiming guides, yoke mounting, and much more, this ruggedly modern fixture will perform at its peak for years to come.

C INDOOR COURT

With our wide selection of ZONE indoor sports lighting fixtures, there's a solution for every application. Numerous form factors, mounting options, lumen outputs, and more provide an abundance of options for every indoor sports and recreation facility.

INDUSTRY EXPERTISE

With nearly 50 years experience lighting sports venues LSI sets the industry standard with its aesthetics, performance and energy efficiency.

Design Services

Our expertise doesn't stop at production, we have an in-house technical design team. They used the most advanced tools on the market, to create custom photometric renderings so you can see light levels before construction even begins.

THE COMPLETE SOLUTION

LSI Industries is an award-winning leader in sports lighting, trusted by facilities nationwide for its performance, innovation, and reliability. LSI sets the standard for sports facilities across the country with cutting-edge LED systems that deliver exceptional visibility, energy efficiency, and long-term durability. From local parks to premier sports complexes, our solutions are engineered to enhance the athlete and spectator experience.

With LSI Pro, our exclusive network of certified contractors, you can be assured of a quality installation from start to finish.

OUTDOOR

The lighting at a sports venue is every bit as important as the surface the sport is played on. Without exterior lighting, there would be no weeknight practices, no early morning matches, and of course no Friday night lights.

LSI's dynamic lineup of outdoor sports luminaires has a solution for every application. Rather than take a one-size-fits-all approach, our outdoor fixtures are available in a variety of sizes, with custom optics and lumen packages.

DESIGNED FOR PLAYERS, DESIGNED FOR FANS

Whether for practice, gameday, or recreation our lighting solutions can meet the most rigorous of regulatory requirements. Additionally, the ability to intuitively manage a complex lighting system enables us to provide comprehensive, custom solutions to a variety of venues.

That's what we do.

Seamlessly integrated with any project, LSI's lighting and controls are designed to be the least noticeable thing at play, so players and spectators can stay focused on game day.

ZONE MODULAR MEDIUM SPORTS

Sports Area & Court Light (ZMM)
24,000 - 54,000

POLES & ACCESSORIES

LSI's full line of steel poles Made in the USA and are available in a variety of shapes and heights. Our poles are fabricated with custom drill patterns and banner arm attachment options. With optional DuraGrip® Plus coating, our poles are unmatched in their corrosion resistance and durability.

Our supplementary line of steel and aluminum brackets provide virtually limitless possibilities for fixture and accessory mounting for fast installation on new projects or retrofits.

CONTROLS

With our exclusive AirLink™ Blue Controls, you can intuitively manage any lighting system right from your iPhone or Android device, from a handful of fixtures in a single location to a few hundred covering an entire sports and recreation complex across multiple acres.

Easily integrated with any lighting project, AirLink™ Blue also meets the most rigorous of regulatory requirements, saving you time and money while enhancing safety and reducing energy consumption.

**MODULAR HIGH BAY
SERIES LIGHT**
High-performance Indoor (MHB)
12,000 - 90,000

BEYOND THE GAME

When the game is over, the parking lot, walkways, and other pedestrian areas should be just as inviting as the rest of the venue. In addition to creating a vibrant atmosphere that makes people want to return, quality lighting makes patrons feel safe. Make your guests feel welcome with LSI Lighting to illuminate the other areas of your facility.
