

## Description: LED Troffer Retrofit Kit (FLRK)

LSI Agents and Internal Staff,

As we restructure our product portfolio, it is necessary to streamline and evolve our core LED product offering. This will allow us to focus on *newer, more innovative designs and emerging technologies* that are aligned with vertical markets and customers' requirements.

**Per our upcoming indoor webinars scheduled for 9/28, our legacy Fluorescent LED Troffer Retrofit Kit (FLRK) product is being phased-out and discontinued effective immediately. No new orders will be accepted for this product. Returns (RMAs) for the Fluorescent LED Troffer Retrofit Kit (FLRK) product will be subject to our terms and conditions. The replacement for the FLRK series will be our upcoming TRK – Troffer Retrofit Kit which launches in November. Note: We currently have preliminary specification sheets for the TRK, please see your regional sales representative.**

All technical information will be removed from the Retrofit product section of the website first week of October and placed in Phase-Out / Discontinuation section.
