

LINIARC® WET LOCATION (LAW2)

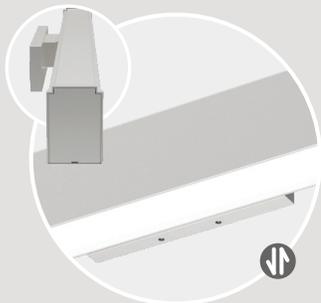

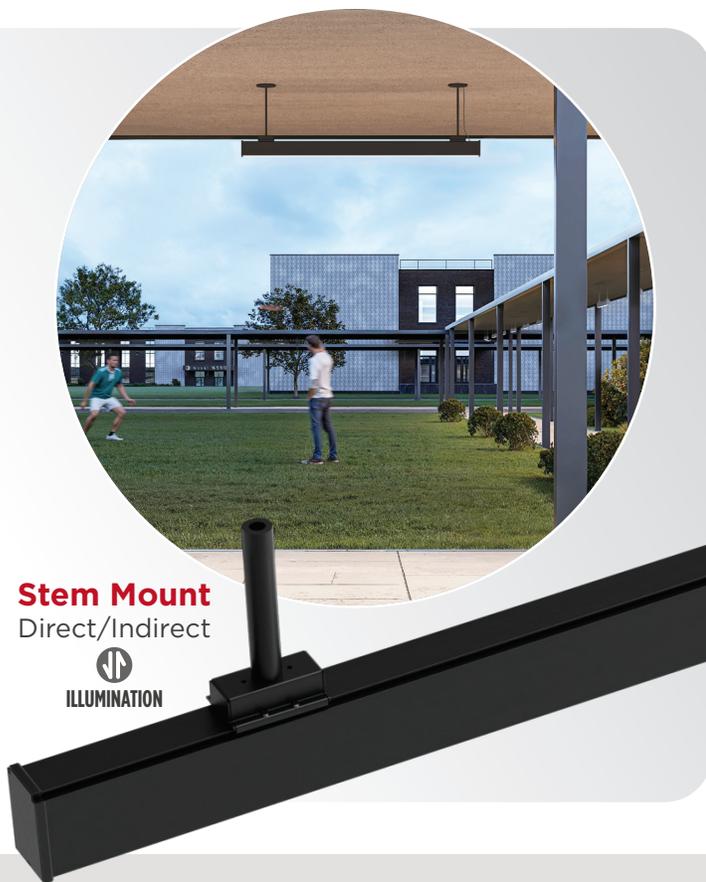

Performance Driven Illumination

Create and continue modern designs inside and out with unmatched versatility with LiniArc® Wet Location (LAW2). As an IP66 rated architectural-grade luminaire designed for a broad range of exterior and interior applications, the factory-sealed design provides peace of mind to installers and customers alike, keeping dust and bugs at bay.

- Architectural-Grade Aesthetics
- Highly Customizable
- Energy Efficient
- Weather-Resistant
- Adjustable Mounting Options
- Easy Installation

Clean aesthetics and unparalleled performance, the LAW2 extends interior linear runs to the outdoors with these mounting configurations:

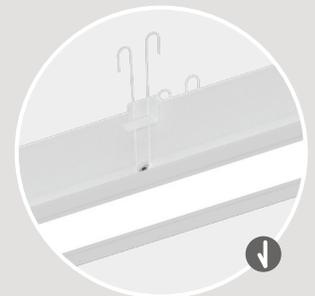

Mullion
Direct/Indirect

Surface
Direct

Aircraft Cable
Direct

Recessed Flanged
Direct

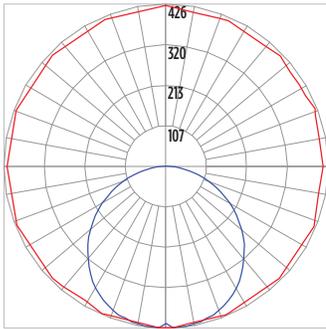

Crafted With Quality

Made with premium materials, the LAW2 uses a high purity extruded aluminum housing, polymeric lens, vandal resistant hardware, and is designed to withstand harsh environmental conditions.

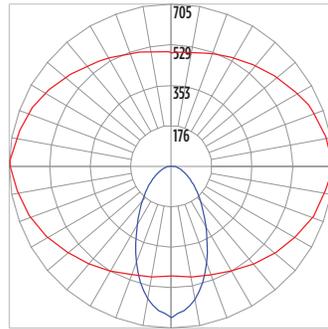

Performance Features

- Corrosion resistance.
- Operating temperatures ranging from -40F (-40C) to 122F (50C).
- Impact & UV-resistance.
- Vandal-resistant hardware.
- Flush lens & drop lens options.

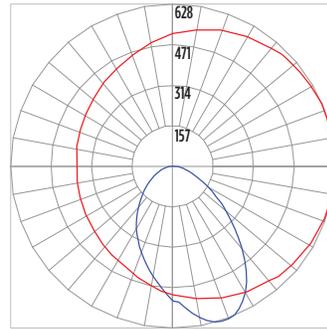

Photometric Distributions

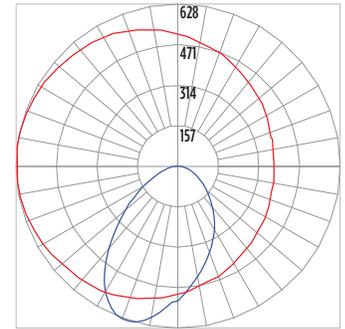

Wide Symmetric Lambertian (S)

Narrow/Wall Graze (N)
