

ALL-WEATHER DOWNLIGHT (SFR)

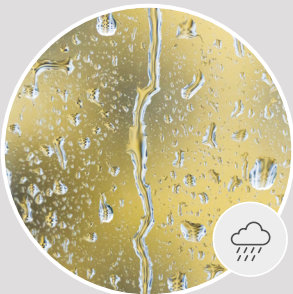

Performance Driven Illumination

A Downlight Built as Tough as You

The **SFR All-Weather Downlight** was born from the same resolve that drives those who show up — no matter the conditions. Gone are the days of settling for downlights unintended for the realities of outdoor conditions. The SFR is **engineered with dependability in mind** and performs reliably even in the worst weather.

Rugged Resilience from Above & Below

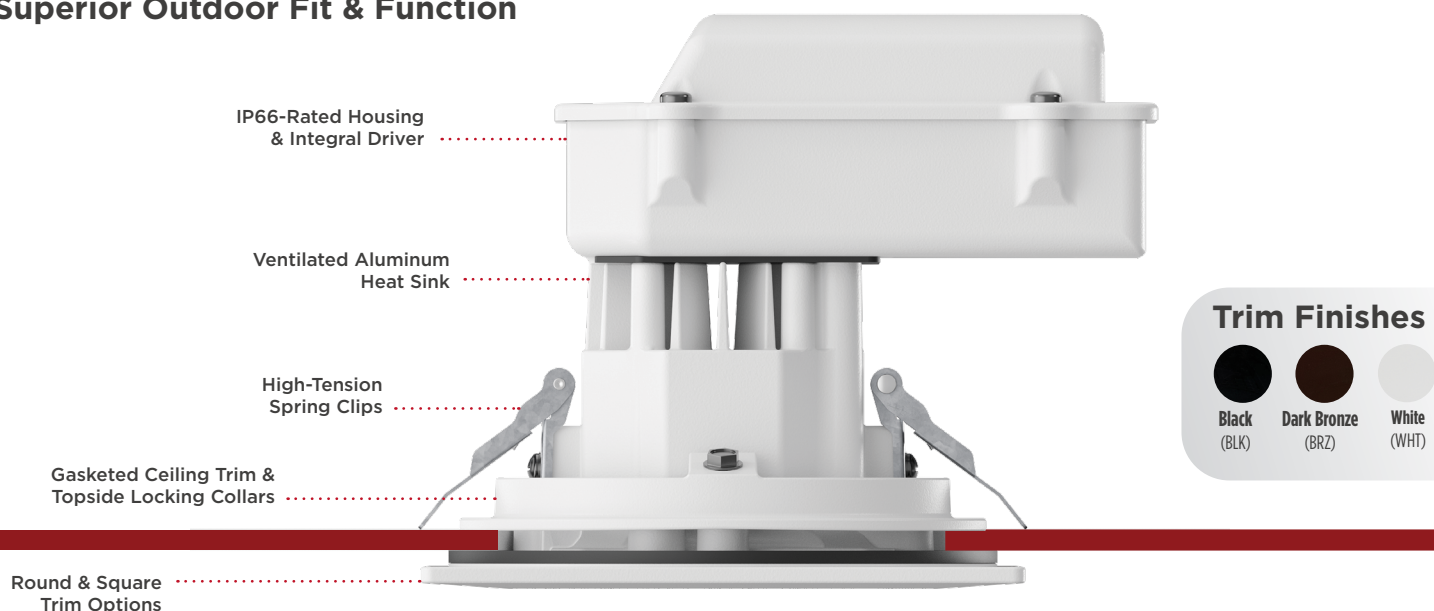

Built Specifically for Exposed Awnings

Engineered to endure, designed to perform, and crafted to last. Avoid the headache and constant replacement costs of inadequate fixtures. Selecting the SFR All-Weather Downlight is an investment in your building, and your peace of mind, for years to come.
