Adjustable Output Module (AOM)

FEATURES & SPECIFICATIONS

- Field Adjustable Output Module (AOM) is field installed inside the luminaire in the driver compartment and wired to the LED driver dimming leads.
- The AOM dims the luminaire from 100% to approximately 25% in 5-10% increments via DIP switch settings.
- Do not use with other dimming systems that use the 0-10V dimming leads.
- Compatible with up to 4 dimming drivers in a single luminaire.
- 2.5" L x .75" W x .25"H
