

Experience Makes The Difference

What's New From LSI The Auto Lighting Leader

A family of high-performance, economical LED fixtures to address all of your site's lighting needs, featuring LSI's exclusive forward throw (FTA) reflector. The FTA reflector allows for (1) fixture on your front row display

The Slice Series

A 16 or 22 inch round LED high bay with up light for both service areas and open ceiling showrooms

The Aureus™ Series

Control Systems that allow you to define and control your lighting systems, further reducing energy and maintenance costs outdoor and indoor

Wireless Controls

An architectural die cast aluminum LED fixture with matching wall pack

The Mirada Series

Digital signage can be used inside store locations to communicate with customers. LED Video Boards are a bold, colorful way to attract customers from road side or indoors

LCD Digital Signage and LED Video Boards

A round recessed LED interior fixture created for high ceilings of 16 feet and above

The XIRR Series
