## LEADING-EDGE MANUFACTURING AND R&D IN OUR DEDICATED REFRIGERATION FACILITY

JSI's refrigeration team is dedicated to providing the highest quality refrigerated displays. Utilizing industry-leading components and LEAN

manufacturing principles, we can ensure that each and every unit meets our strict quality guidelines.

### QUALITY

Top-rated components and best-in-class materials are the foundation of every display we build. Our staff of engineers, technicians, and craftsmen ensure you receive the highest quality product every time.

### EFFICIENCY

Our dedicated refrigeration facility manufactures and distributes refrigerated displays to all of JSI's regional facilities, resulting in lower freight costs and shorter transit times.

### INNOVATION

We are listening! At JSI, our customers drive innovation at every turn. Visit our facility, testing lab, and showroom to see how we can help you achieve your fresh display objectives.

# REFRIGERATED BERRIES STAY FRESHER LONGER AND RESULT IN BETTER SALES!

Customers buy berries on impulse, so the better they look, the more you sell. Our refrigerated slant bins provide the perfect presentation, keeping

berries at the ideal temperature, so they stay fresher longer, bruise less and sell more. Here are a few facts to help you pick better berries for your customers:

## HARVEST

In North America, blueberry season runs from late May through late summer, with peak harvesting in July. When berries turn solid blue, they're ripe. If they're tinged in red, they ship well, but haven't reached maturity...give them a few days to turn completely blue for maximum sweetness.

## SORTING AND PACKING

It's best to sort blueberries during manual harvesting, removing defective fruit as it is picked, to minimize handling. Look for insect bites, broken peeling and mold, as well as over- and under-ripe fruit, shriveled and off-color berries. Once berries are sorted, they're packaged and kept refrigerated during transport to market.

## COOLING

Blueberries kept at 40°F have between 10 and 20 times the shelf life of unrefrigerated berries. The sooner harvested blueberries are cooled, the better, ideally, within 4 hours of harvesting. Using forced-air cooling helps speed the cooling process, and results in higher quality berries for your customers.

## CRITICAL TEMP REFRIGERATED DISPLAYS ENHANCE IMPULSE PURCHASES, RESULTING IN HIGHER SALES

JSI's self-contained refrigerated displays are perfect for creating exciting displays for your specialty pastries. These attractive displays can be placed in high visibility locations and simply plugged in for impulse sales EVERYWHERE!

### ATTRACTIVE

JSI's expertise in wood building and finishes allows us to provide refrigerated displays that project your image and draw attention to your specialty bakery items.

### FLEXIBLE

Our refrigerated merchandisers have a low front for product visibility, and are available with accessories to properly display all your refrigerated bakery items.

### RELIABLE

JSI's refrigerated display cases are built using the best quality and most efficient components available. You'll find our cases are the easiest to maintain and the quietest in your stores!

# CRITICAL TEMP SLANT BINS

JSI's refrigerated display cases are built to enhance product visibility and seamlessly blend with your decor.

# PROMOTIONAL DISPLAYS

All of our critical temp displays are on casters and simply plug and play. Use your imagination and create an exciting shopping destination anywhere in the store.

# INNOVATIVE DESIGN

JSI's innovative design allows for maximum product visibility and a variety of merchandising options, designed to maintain product temperatures at 33°F to 41°F.

# CRITICAL TEMP ORCHARD BINS

JSI Refrigerated Orchard Bins are ideal for extending the quality of your product. A self-contained compressor with raised air flow vents allows for mobility and maximum efficiency while maintaining critical temperature.

# EYE-CATCHING DISPLAYS

JSI's Refrigerated Orchard Bins are available in the industry's largest selection of wood species, styles, and finishes.

# MIX YOUR FIXTURES

With hundreds of combinations available, tie your entire fresh department together with refrigerated and non-refrigerated fixtures from JSI. Speak to one of our JSI sales specialists to learn firsthand how to integrate and design a fixture grouping that will exceed all of your customers' expectations.
